- Share Night Block
 - User can share through facebook, twitter, email, and to the Moody public page
- View Community Blocks
 - User can filter blocks by mood setting and see other blocks
 - User can uparrow blocks they like and create trending blocks

Utility:

- Through sentiment and behavioural analysis, we want to take the thought of making a plan and make it as simple as a short survey. In the future, it could provide plans weekly/monthly based on previous behavior mood patterns and make planning easy for the indecisive.
